

INDEX OF CERTIFICATES AWARDED TO THE STUDENTS WHO SUCCESSFULLY COMPLETED THE DFIN-511 INTRODUCTION TO DIGITAL CURRENCIES COURSE OF THE UNIVERSITY OF NICOSIA'S MSc IN DIGITAL CURRENCY, APRIL 2015-JULY 2015

A SHA-256 hash of this index document has been stored in the Bitcoin blockchain on July 30th 2015, in a transaction that will also be announced on July 30th 2015 through University of Nicosia's website and Twitter account @MScDigital.

On the following pages are the SHA-256 hashes of the 90 certificates awarded to the students who successfully participated in the DFIN-511 Introduction to Digital Currencies MOOC, offered by the University of Nicosia.

To verify the authenticity of a presented certificate, please follow these steps:

(1) Confirm the authenticity of the index document:

- (a) Ensure that you are using a valid index document supplied by the University of Nicosia
- (b) The index document PDF can be found at <http://digitalcurrency.unic.ac.cy/certificates> and at other online locations distributed by the University of Nicosia
- (c) The validity of the index document can be confirmed by reviewing the OP_RETURN field in blockchain transactions confirmed between 0700 and 1000 GMT on July 30th 2015. The SHA-256 hash of the valid index document, prepended by "UNicDC" (554e6963444320 in hex encoding) will be found in one transaction during that period

(2) Confirm the authenticity of the certificate:

- (a) Produce a SHA-256 hash of the PDF certificate to be authenticated
- (b) Search for the certificate's SHA-256 hash within the authenticated index document. If the hash code is found, then the certificate is authentic

CERTIFICATES OF ACCOMPLISHMENT

Certificates of Accomplishment were awarded to the students who attempted and completed at least 75% of all quizzes and achieved a grade of 60% or above on the final exam of the DFIN-511 Introduction to Digital Currencies MOOC

71 certificates awarded
